INSTRUCTION

A relaxing morning yoga class offers early birds a way to greet the day, as well as to dig deep for inspiration to apply to the day's writing.

Share breakfast with the other writers and leaders as one of the leaders offers a reading from a favorite text and discusses why it works. Go into the day inspired by those writers whose work inspires us!

Each participant works individually with one of the leaders on up to 25 pages each writer has chosen to bring to the retreat. Every genre is welcome and participants choose the writer with whom s/he wants to work.

A healthy lunch provided for all participants, then some beachside writing time (or personal time). After all, this is Write-On-The-Beach!

Dinner with your fellow writers to share the day's events or talk about books. Evening readings and s'mores by the firepit. Perhaps you'll want to sit in the hot tub or take a cool midnight swim...or stroll the beach...or share your writing.
